

**Merging of JSI and Community Electronic Catalogs, with new catalog codes, effective with October 2020 DVD**

Keeping with our desire to consistently present our product across all specification tools and to reflect changes happening with the brand and new website; JSI products will be aligned under the following catalogs.

**NOTE:**

When the October installs are loaded, it will add the new structure to the old. Until you remove the old structure, your content will look like the below.

**Don't forget to remove the old structure!**
