

Assembling and Attaching

Run-off Desk with End Leg/Post Frame to a Support Credenza

Installers: Two set of brackets are included with the run-off desk, flat brackets and stepped brackets. Credenza are offered with aprons or no aprons.

Types of Credenzas

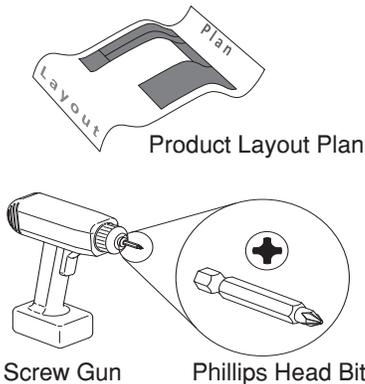

flush to top - use flat bracket

apron rail top - use stepped bracket

Recommended Tools

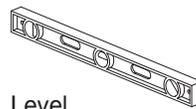

Screw Driver

Pencil

Drill Bit

Level

Tape Measure

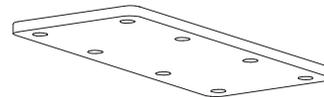

Hardware Used

#8 x 7/8" Wood Screws

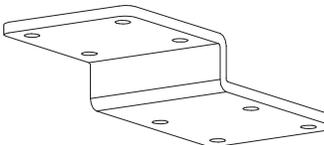

1/4-20 x 3/4" Pan Head Screws

Flat Bracket

four (4) flat brackets included

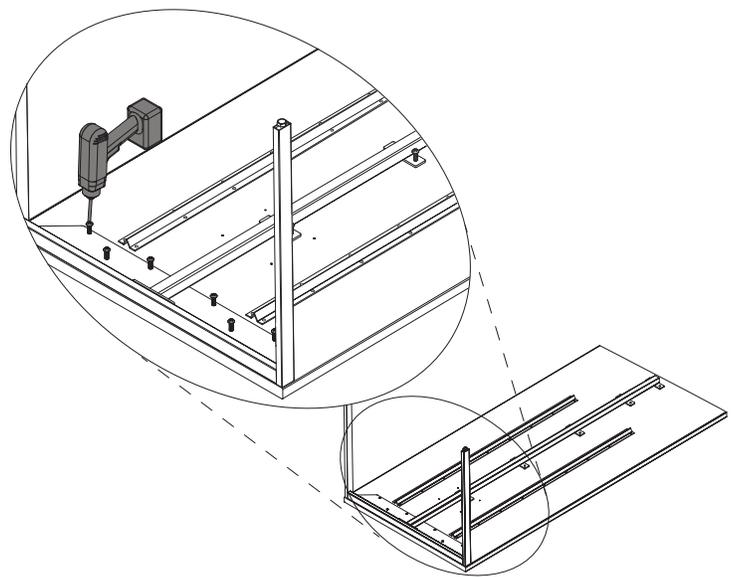

Step Bracket

four (4) step brackets included

Step 1 End Frame Assembly / Post Frame Assembly Installation

- Unpack the end leg assembly/post frame assembly along with hardware.
- Align the top support rail perpendicular to the end leg assembly/post frame assembly using the two 1/4-20 pan head bolts to secure the top.
- Flip worksurface top upside down and lay on a flat clean debris free pad.
- Place leg or post assembly onto the bottom side of the worksurface top.
- Align the leg or post assembly with the prebored holes on the top for the assembly.
(*tabs on Top Support Rail are not pre-bored*)
- Fasten assembly to the bottom side using #8 x 7/8" pan head screws.

Notice To Installers: Failure to comply with installation instructions will compromise the safety, durability and performance of this product, which may risk injury to the user of this product and/or diminish the product life cycle. Jasper Group assumes no liability in these instances.

Assembling and Attaching Run-off Desk with End Leg/Post Frame *continued*

Step 2 FLAT - Attaching Brackets

- Determine the location (from the plan) of the of the run-off desk. Make sure credenza is level and placed correct as per layout location.
- Evenly space out bracket locations provided with run-off desk. The flat bracket should be centered half way between the bracket length.
recommended all brackets be used.
- Fasten the flat bracket to the credenza using the provided screws, #8 x 7/8".

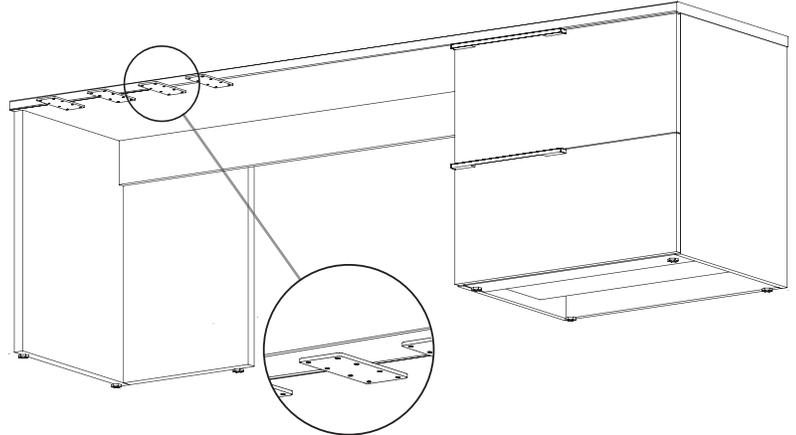

diagram show placement for a 28" wide run-off desk top.

Step 2 STEP - Attaching Brackets

- Determine the location (from the plan) of the of the run-off desk. Make sure credenza is level and placed correct as per layout location.
- Evenly space out bracket locations provided with run-off desk. To avoid interference with the run-off desk support rail do not place any brackets in the center. The step bracket should be up tight against the apron rail as shown in the diagram.
recommended all brackets be used.
- Fasten the step bracket to the credenza using the provided screws, #8 x 7/8".

note: make sure the brackets are level

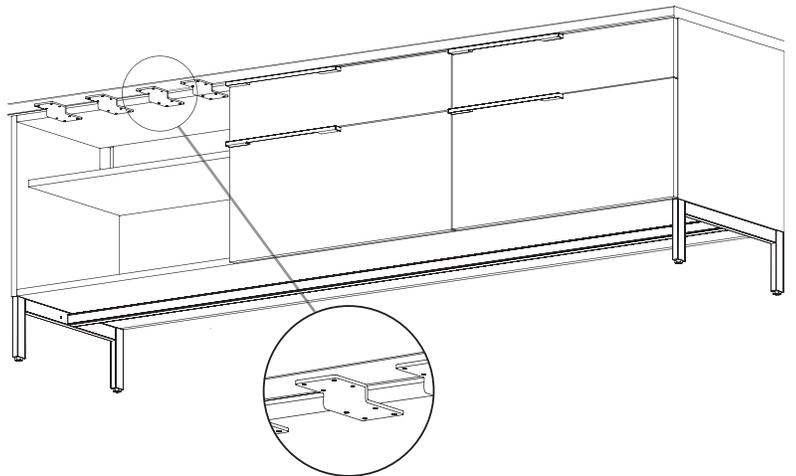

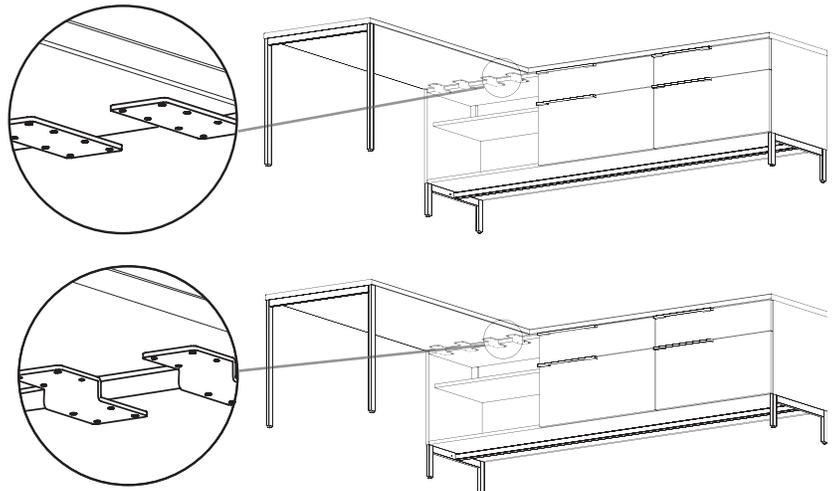

diagram show placement for a 28" wide run-off desk top.

Step 3 Attaching Run-off Desk (Flat or Step Styles)

- Lift the run-off desk in to place, using the bracket on the credenza as support.
- Measure the location and level the run-off desk.
- Lift the run-off desk in to place, align the holes and fasten the bracket to underside of the run-off desk with the provided screws, #8 x 7/8". as shown in the diagram.

Notice To Installers: Failure to comply with installation instructions will compromise the safety, durability and performance of this product, which may risk injury to the user of this product and/or diminish the product life cycle. Jasper Group assumes no liability in these instances.
