

GENERAL PRODUCT

INSTALLATION OF A DUAL-LOCK TACKBOARD

Recommended Tools

Figure 1

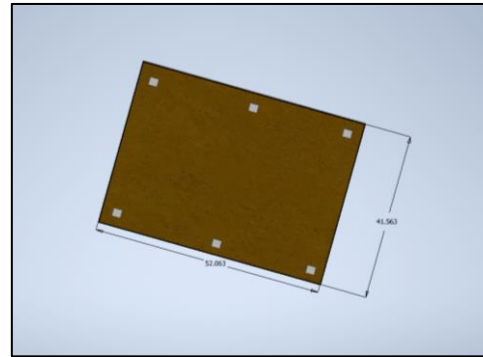

Figure 2

1. Remove adhesive peel strip from the back of the tackboard (Figure 1)
2. Position and secure tackboard in desired location by applying pressure to face of tackboard (60 seconds recommended)

Note: When installing in a hutch, if the hutch has grommets, then mount the tackboard 4" above the worksurface. If not, mount just above the worksurface.
