## CLEAN. NEUTRAL. CLASSIC.

---

Finn is a modern design marvel of mixed materials for strength and durability, and the savvy specifier. Add a touch of comfort and luxury to any space.

Designed by Q Design

*meet Finn.*

Finn is an organic mix of modern engineering, mid-century aesthetic, and Scandinavian design providing touchdown seating arrangements in smaller spaces to rounding out interior designs.

## 6 Techniques to Dramatically Upgrade the Quality of Your Presentation

1. Eliminate or ease through information not relevant to your audience (or highly relevant)
2. Never show multiple elements of info on a slide before you talk about them
3. Customize your examples to be relevant to your audience, geography, or shared passions
4. Create a conflict in your story of a villain, hero, and struggle
5. Give actionable advice. Avoid broadly generic advice. Better: "Communities are Good!"
6. Assume knowledge of facts to raise their hand to know what you mean.

*comfort and* **STYLE.**

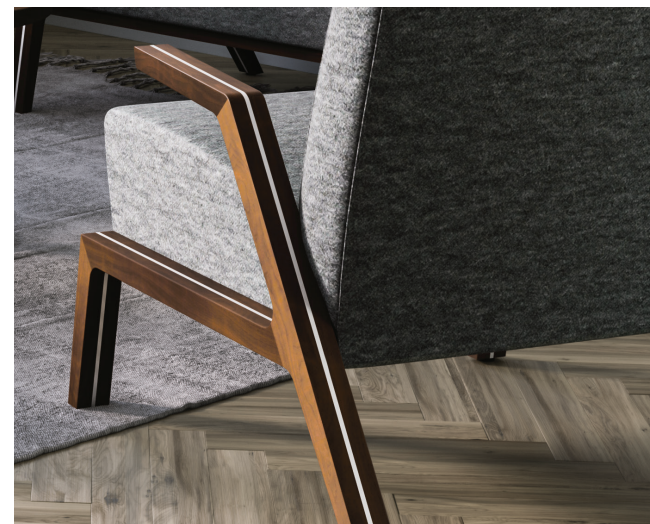

An accent chair is an important touch in any interior as they help reinforce a room's style, and can become a quick perch when seating is scant. A lounge series like this is a great option for mid-century-inspired style.

## MIXED MATERIALS.

Subtle detailing exposes the material quality and the polished steel inlay contrasts with the natural wood frame.
