Arwyn transforms meeting rooms and private offices with its luxurious, generous sit and charming form. With multiple upholstery zones, it offers creative freedom for customization, while its ultimate comfort makes Arwyn the perfect choice for long meetings or focused work in private settings. Sophisticated details, like the standard five-star polished aluminum base with optional polished casters, add finesse, making it an eye-catching and elegant choice. Elevate your workspace with the Arwyn conference chair — designed for those who value both support and superior style.

### **TORII BASE – A VISION ENHANCEMENT**

Our Vision casegoods series elevates every moment. Enhancements like the Torii base bring a fresh perspective with architectural details and unexpected inspirational influences. Torii gates throughout Japan stand as symbolic markings of transition. With these architectural elements as inspiration, the Vision Torii base—a solid wood, rounded-style base—creates playful moments that pair well with other elements like rounded corner desks, plush upholstered pieces, or Indie wall tiles. Its wooden dowel-like structure celebrates its end-grain detail as it's brought flush to the edge of the worksurface. Torii bases offer another way to achieve more organic, softer visual elements.
