

# Kindera Replaceable Part - Handle

## Install Instructions

### Tools Required

- Screw Driver
- #2 Phillips Head 
- Drill 

### Hardware Included

- 1 - Handle Post 
- 1 - Flat Head Bolt 
- 1 - Wood Screw 

### Installation

1. Locate the hole on the recliner back (Figure A).
2. Thread the post into the hole (Detail A, Figure B).
3. Make sure the threaded hole in the post is running vertically towards the top and bottom of the back. (May need adjusted so handle is tight against the back).
4. Locate the end of the handle with the larger hole and insert the post (Detail B, Figure B).
5. Using a screw driver, insert the flat head bolt through handle (Detail C, Figure C).
6. Using the drill, insert the wood screw into the bottom hole (Detail D, Figure C).
7. Ensure that all bolts and screws are flush and tightened securely.
8. Finished handle (Detail E, Figure D).
