Assembly Instruction for Top Support Rail

Recommended tools

#2 Phillips Head

1/8" Drill Bit

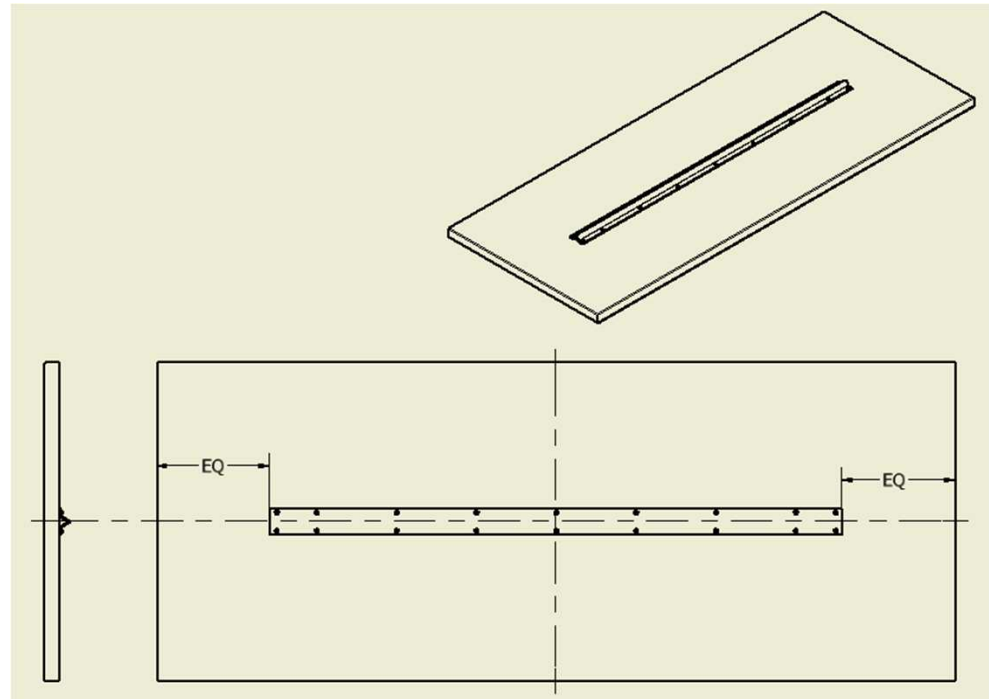

Measuring Tape

Hardware enclosed

#8 x 5/8" Phillips
Panhead Wood
Screws

NOTE: all screws provided must be installed for proper installation and compliance with product warranty.

1. Place the work surface face down and a non-marring surface.
2. Place the support rail on the bottom of the work surface. The rail should be centered side-to-side and front-to-back on the work surface.
3. Starting in the center and working out to the ends of the rail, attach the rail using the #8x5/8" panhead screws provided. All screws provided must be installed to give proper support.
