Linking Tables

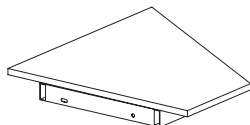

Package Contents

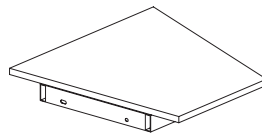

Moto linking tables are available in four different shapes. Your package will contain one of the linking tables below. The illustrations in these instructions show using the rectangular linking table, however all table shapes use the same method of attachment. Please adjust accordingly.

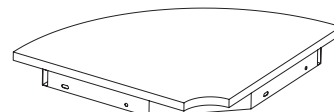

Rectangular

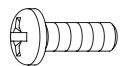

30° Wedge

22 1/2° Wedge

Quarter Round

(4) Bolts

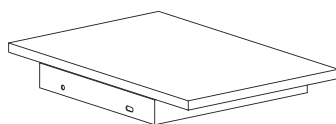

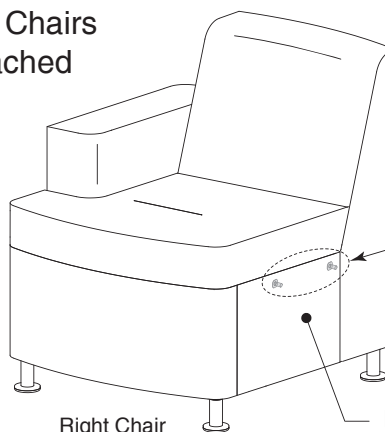

(4) Washers

Moto seating units have factory installed T-Nuts located on both sides of the frame which are used to attach linking tables. These T-Nuts are concealed when the chair is upholstered. After you determine which side of the chairs get the linking table, you will need to locate the hidden T-Nuts by feeling through the upholstery with your fingers. The following installation instructions will show a rectangular linking table being attached between a Right and Left chair.

Step 1

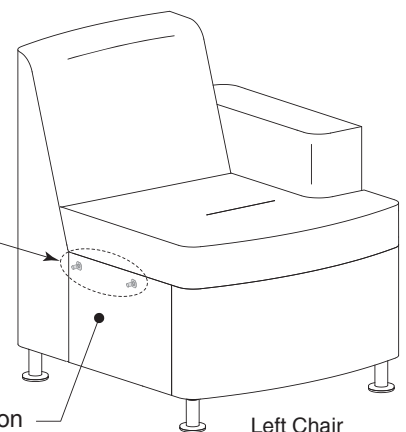

Determine which Side of the Chairs the Linking Table will be Attached

Rectangular
Linking Table

Right Chair

T-Nuts beneath
upholstery

Linking Table will go on
inside of Right and Left
Seating Units

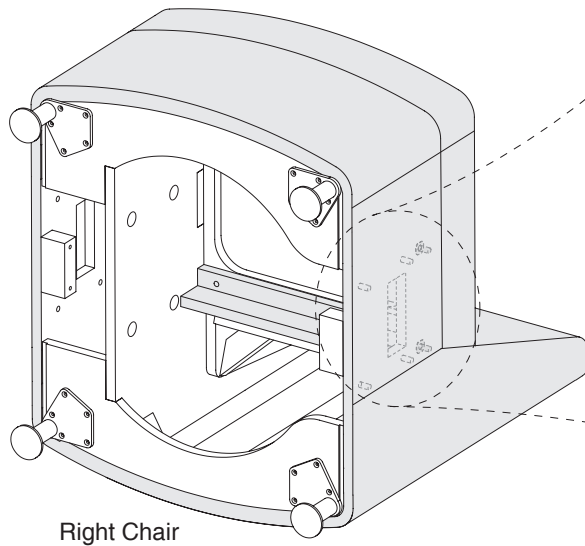

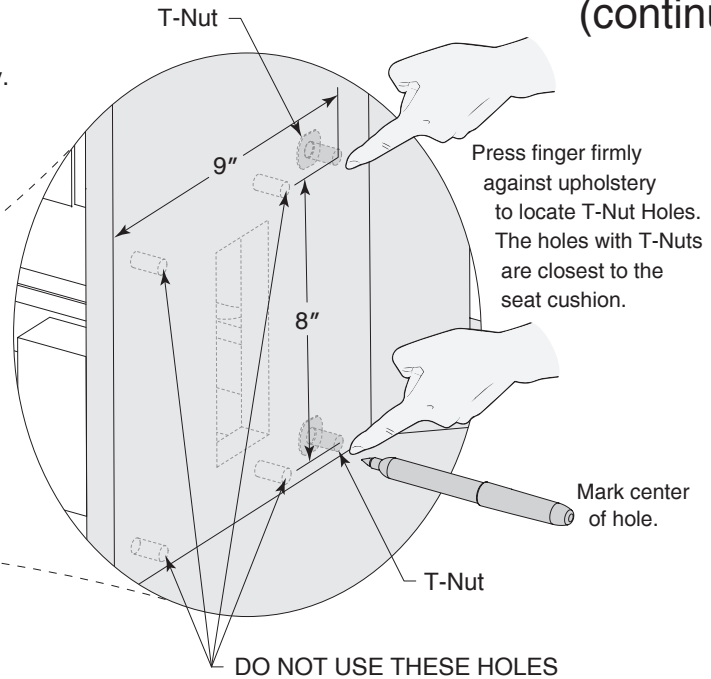

Left Chair

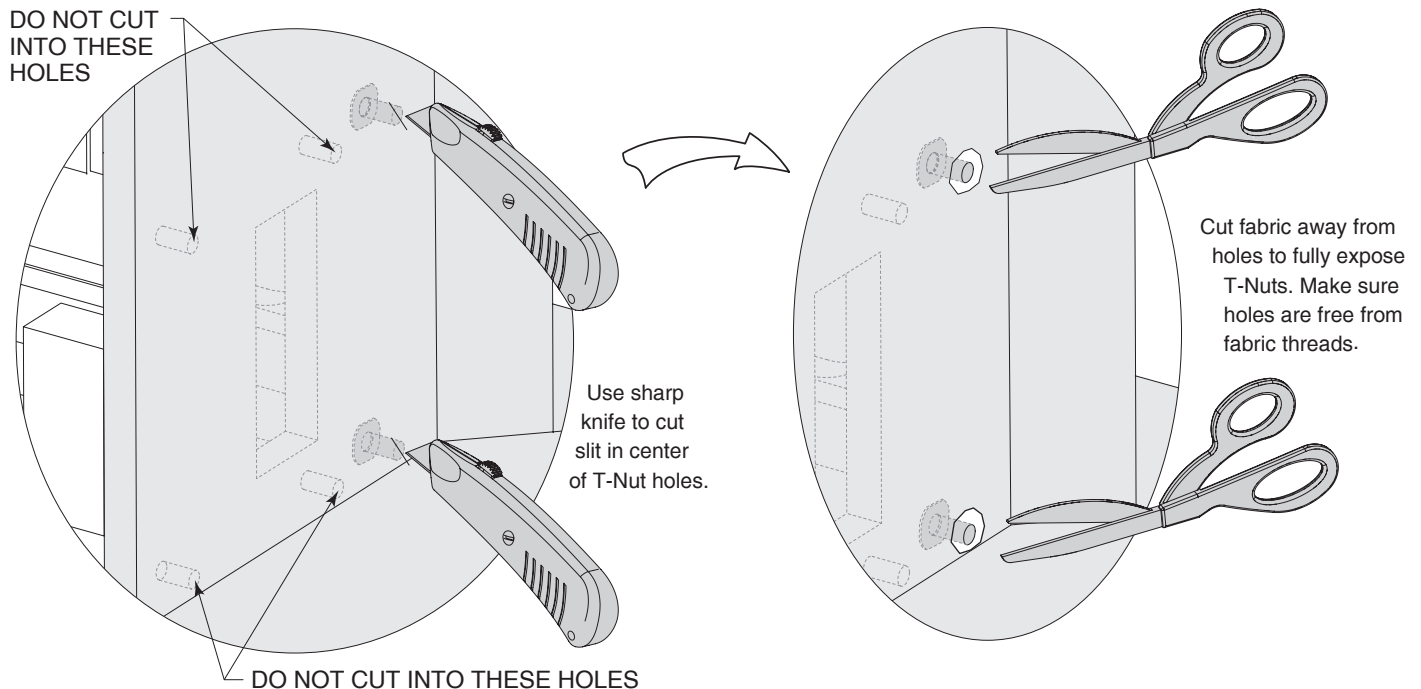

Notice To Installers: Failure to comply with installation instructions will compromise the safety, durability and performance of this product, which may risk injury to the user of this product and/or diminish the product life cycle. Jasper Group assumes no liability in these instances.

Step 2**Locate T-Nut Fasteners beneath Upholstery**

- Carefully flip chair on it's back.
- Use fingers to locate two T-Nuts holes beneath upholstery. These T-Nuts will be used to attach the linking table.

**Linking Tables
(continued)****Step 3****Cut Holes in Fabric to Expose T-Nut Fasteners**

- Use utility knife to cut slit into fabric in the center of T-Nut holes.
- Use scissors to cut away fabric around hole to fully expose T-Nut fasteners.
