

MagLinx™ Usage Instructions

Usage

Assembly Instructions

1. Locate the male and female glides on the legs of the chairs (Figure A).
2. Push the chairs together.
3. Ensure that the glides properly magnetized together by moving one end of the chairs.
4. The glides are properly magnetized together if both chairs stay attached at the bottom of the legs.

Disassembly Instructions

1. Lift top of arms and pull in different directions to help break magnetic connection (Figure B).
2. The magnetic connection needs to be broken in order to disassemble the chairs.
3. Once the magnetic connection is broken, the chairs will easily separate (Figure C).
4. MagLinx™ chairs assembled and disassembled (Figure D).
