

BoltLinx Glide

Install Instructions

Tools Required

- L Key (Supplied) 

Hardware Included

- 2 - Female connector bolt 
- 2 - Male connector bolt 

Installation

1. Identify BoltLinx glides where connector bolts will be installed (Figure A).
2. Push BoltLinx Glides together.
3. Insert female connector bolt through outside of BoltLinx glide (Figure B).
4. Insert male connector bolt through other BoltLinx Glide and start to thread through female connector bolt.
5. Tighten male and female bolt connector bolts using L Key.
6. Repeat on other glide links where the BoltLinx is desired.
