

# Replaceable Part - Back

## Install Instructions

### Tools Required

- Socket or Socket Driver

### Hardware Included

- 2 - Hex Bolt (Quantity Varies with Chair Model) 
- 2 - Washer (Quantity Varies with Chair Model) 

### Installation

1. Lay chair frame on back, so bottom of unit is accessible.
2. Locate holes in back and on bottom of chair frame (Figure A).
3. Line up holes on back with holes on chair frame.
4. Using the socket or socket driver, secure the back to the chair frame with the hex bolt and washer provided (Figure B).
5. Tighten bolts to ensure they are secure.
6. Turn chair so it is upright (Figure C).
