

**NOTE: Use 5/8" screws when screwing into the back panel and use 1-1/2" screws when screwing into the top**

# VISION MODULAR

## INSTALLATION OF A STANDARD HEIGHT MODULAR TOP

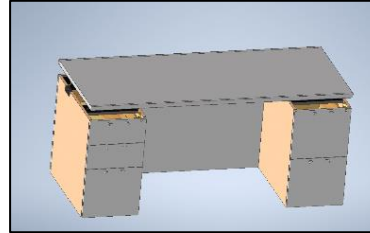

### Recommended Tools

**Hardware needed is enclosed with end panels or pedestals**

Failure to comply with installation instructions will compromise the safety, durability and performance of this product, which may risk injury to the user of this product and/or diminish the product life cycle. Jasper Group assumes no liability in these instances.

Figure 1

### Installation Directions:

1. Lay top panel on pedestals or end panels. Panel should be centered horizontally and overhanging 3/16" over the front (Figure 2)
2. Insert #8 x 1-1/2" screws from the bottom through the holes located on the stretchers in each pedestal (Figure 3)
3. Position and secure the L-brackets (QTY VARIES) from your end panels or pedestals so that they are evenly spaced from each end of the back panel using #8 X 5/8" screws (Figure 4)
