

INTERIOR DESIGN AND CONSTRUCTION RATING SYSTEM COMMERCIAL INTERIORS, HOSPITALITY 2013

JSI products may contribute toward LEED V4 ID&C in the areas listed below. Verify with your architect/designer for the building rating system being sought and any Regional Priority and/or Innovation points that may apply. Please note that additional charges may apply, materials may be subject to availability, performances standards; lead times and warranties may be affected and possible limited choice selections. The earlier we know, the more we are able to help. The project must include a minimum of 250 square feet of gross floor area.

MR CREDIT: INTERIORS LIFE-CYCLE IMPACT REDUCTION

Requirements: Reuse, salvage or refurbish furniture and furnishings for at least 30% of the total furniture and furnishings cost. Include in at least one major component or systems purchase contract with a clause specifying subcontractor, vendor, or on site take back system. Ensure that at least 50% of nonstructural materials, by cost, are reusable or recyclable.

Potential Strategies:

OPTION02 Furniture Reuse

OPTION03 Design for Flexibility (must meet three of the criterions)

- 01 Take back initiative.
- 02 Reusable or recyclable.

MR CREDIT: BUILDING PRODUCT DISCLOSURE AND OPTIMIZATION - SOURCING OF RAW MATERIAL

Requirements: Use products that meet 1 of 6 listed criterions for at least 25%, by cost, of the total value of permanently installed building products in the project. Furniture must be included in the scope of the project. For cost based credits, extra weighting may be obtained if the product is purchased, manufactured and extracted within 100 miles of the project and meets at least two of the criterions called out in the credit:

Potential Strategies:

OPTION02 Leadership Extraction Practices (must meet one of the criterions)

- 01 Extended Producer Responsibility-reuse, take/back, recycle initiative.
- 02 Materials Reuse-use salvaged, refurbished or reused products.
- 03 Recycled Content-use product with recycled content.

EQ CREDIT: LOW-EMITTING MATERIALS

Requirements: Furniture evaluation-new furniture must be tested in accordance ANSI/BIFMA M7.1-2011. Furniture must be included in the scope of the work.

Potential Strategies:

Use of UL 2818 GreenGuard Indoor Air Quality Certified and/or ANSI/BIFMA M7.1 tested product.

EQ CREDIT: INTERIOR LIGHTING

Requirements: Select finishes to meet average surface reflectance (LRV) of 45% + for work surfaces.

Potential Strategies:**OPTION02 Lighting Quality (must meet 4 of the criterion)**

01 F.surface reflectance

LEED V 4 ID&C certifications are awarded according to the following scale:

- Certified 40-49 points
- Silver 50-59 points
- Gold 60-79 points
- Platinum 80 points and above
