As our world transitions back to work, it is our highest priority at JSI to provide solutions that deter the transfer of viral and bacterial pathogens on the surfaces of our products. We are committed to locating and providing materials and finishes that can be safely cleaned and disinfected on a regular basis. We offer numerous textile and hard surface options that will stand up to the rigors of frequent bleach cleaning, ranging from untreated surfaces to those with anti-microbial topcoats. Please contact our Customer Support Team today for more information.

MATERIALS

ACRYLIC: water based foam or cleaner and bleach cleanable (5:1)*

ACOUSTIC PET: bleach solution cleanable (2% bleach)*

HPL LAMINATE: recommended by suppliers: Clorox Healthcare Bleach Germicidal wipes, Virex II 256, PDI Super Sani-Cloth wipes, PDI Sani-Prime Germicidal spray

TFL LAMINATE: cleaning guidelines will vary between manufacturer; cleaning details available upon request

VENEER: first clean with warm soapy water - do not soak. Pledge Antibacterial cleaner or bleach free disinfectant wipes are recommended

COATED FABRIC: water based foam or cleaner and bleach cleanable (4:1)*

FABRIC: cleaning guidelines will vary between fabric type, pattern and manufacturer; see material recommendations for bleach-solution cleanable fabrics

PLASTIC: cleaning guidelines will vary between plastic type and manufacturer; see JSI Cleaning Guidelines for details.

*Bleach solution cleanable:
Complies with BIFMA HCF 8.1 guidelines
Important to rinse repeatedly with cool, clean water after cleaning to remove all residue
More cleaning details from raw material suppliers available upon request

All surfaces with the exception of some fabrics can be cleaned with Clorox Healthcare Bleach Germicidal Wipes as well as bleach free wipes. This includes all coated fabric, laminate, acrylic and metal surfaces.
