

JSI MATERIALS

Second Edition – From Heritage to Horizon

PORT FOL IO

From Heritage to Horizon— A Story Told in Every Surface

For nearly 150 years, we've been guided by a deep love of craftsmanship, beginning with the warmth of solid wood and shaping timeless seating and desks by hand. As the world evolved, so did we—thoughtfully expanding our artistry to include the rich textures of veneer, the versatility of laminate, and most recently, the sleek strength of metal and the beauty of powder coating.

Every surface is just a starting point. From mixed materials to custom detailing, our full capabilities come to life in what we call our Designer's Playground—a space where material meets imagination. This portfolio focuses on our core materials, but our expertise extends even further to include more textiles, solid surface, plastic, and glass—each contributing to the flexibility, functionality, and story behind every piece. Each material and capability is woven into a tradition that respects where we've been, while shaping a future of purposeful, enduring design.

New Techniques, Same Touch

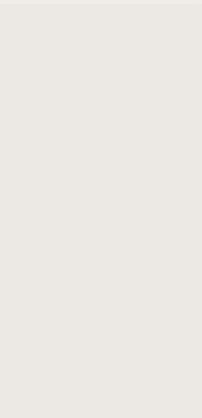

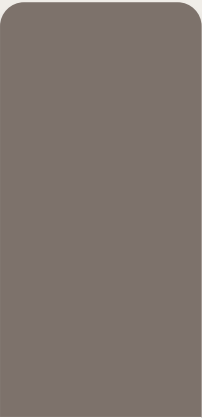

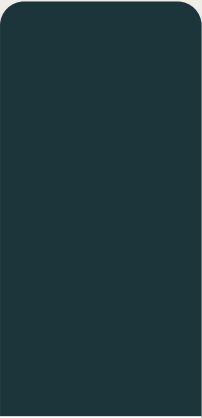

Metal is our newest muse. A material of strength and elegance, shaped with the same care and intention that has guided our craft for generations. With graceful wire bends, sculpted sheet forms, and finishes refined through vibrant powder coating, we bring warmth and artistry to a medium once thought cold. This chapter reflects the precision of modern technique, without losing the human touch that defines our work.

Color
Metal
Collection

Our Color Metal Collection features hand-selected, richly saturated hues that bring both vibrance and versatility to any space. Whether adding a bold pop of color or seamlessly blending into its surroundings, each finish brings warmth, personality, and presence to the space it inhabits.

Desert Stone	Olive Fog	Evergreen Pine	Emerald City	Mustard Seed	Sparkling Peach	Candy Apple
						
Midnight Whisper	Space Cadet	Blue Jean	Electric Blue	Stormy Sky	Dusty Petal	Spiced Raisin

Where Our Craft Took Root

Wood is where our craft began. It's a material of honesty, warmth, and enduring beauty. For generations, we've shaped it with care and respect, guided by a deep understanding of its character and the land it comes from. We choose our materials with reverence, knowing that each tree carries a story—its sun, its soil, its season. From the forests that supply us to the hands that finish each piece, our legacy with wood is one of dedication, stewardship, and timeless design.

	
Egret	Rye
	
Buff	Sable
	
Cinder	Barrel
	
Saddle	Raven

Veneer
Artisan
Collection

A curated selection of finishes that bring a refined, modern feel to any space.

Veneer
Essentials
Collection

A collection of patterns and hues that allow maximum material flexibility and style range.

***Core Materials** are our go-to finishes that are offered across a multitude of products and substrates, including Quickship.

Upholstery / Sewing

Upholstery is where comfort becomes craft and where form meets feel in the most personal way. Every stitch, seam, and curve is shaped by skilled hands with an eye for precision and a sensitivity to touch. We work closely with trusted textile partners and our experienced sewing and upholstery teams ensure each piece not only looks refined but lives beautifully in everyday use. It's a process rooted in patience, expertise, and care—because we believe comfort isn't an afterthought, it's the heart of the experience.

Our
Textile
Partners

Thoughtful textile makers who share our belief that material is more than a surface.
