

1. Remove (2) 54" Wall Mounting Cleats from back of Left & Right Headboard and 2-20" from the back of Center Headboard.
2. Secure Wall Mounting Cleats (2-54" and 2-20") to wall studs per drawing using desired height. Use stud finder to locate wall studs.
3. Attach Nightstand to Center Headboard Assembly. Use locator cleat to spot Nightstand and align holes left to right. Attach with supplied bolt and washers from back side.
4. Hang Center Headboard Assembly on Wall Mounting Cleat.
5. Hang Left Headboard Assembly on Wall Mounting Cleat and carefully slide together using alignment connectors attached to backside.
6. Rout wiring for LED uplighting from switch on power strip to top of Right Headboard Assembly.
7. Hang Right Headboard Assembly.
8. Attach leg kits (4 per kit) to outside end panels & front panel of headboard assemblies & next to center headboard assembly with supplies screws.
9. Install LED uplighting and Clear Acrylic cover in recess at top of Headboard Assembly.
10. Plug in all electrical cords.
