

### WOOD PROCUREMENT POLICY

Klem is proud to use wood as our primary resource. No other nature resource can match the environmental advantages of wood. It is 100% natural, renewable, biodegradable and carbon negative.

Klem recognizes that forests, forest functions and forest products contribute to human well being worldwide and every country must value its forests and strive for equity in access to the benefits that forests provide. We believe that the timber industry has the responsibility to the people to base its commercial activities on properly managed and optimized forests.

It is the responsibility of our Purchasing Agents to follow our [Environmentally Preferable Purchasing Policy](#) and to secure wood specified in Klem products:

- From known, legal and well-managed sources.
- NOT containing endangered wood species listed in Appendix I or II of CITES.
- NOT plantation grown, unless there is a justified net social and environmental gain.
- NOT containing conflict wood.
- NOT from genetically modified trees.
- NOT from areas where traditional or civil rights are violated.

Approved this 19th day of August, 2014.

#### Mike Wagner

CEO and President

Jasper Group is the parent company of JSI: quality furniture for work and life, and Klem: crafted furniture for life away. Strongly rooted in the heart of the Midwest, generations of our furniture family have been proudly practicing their craft in southern Indiana since 1876.
