Crafted for comfort.

Garvey's soft curved back and thick cushion seat redefine the meaning for comfort.

For conference or private office, Garvey is designed for comfort and mobility. A sleek, premium look can be achieved with Garvey's polished aluminum arms, which pairs perfectly with the aluminum base.

Garvey is offered in two models, executive high back and management mid back, with optional arm cap, base color, mechanism and caster styles. Offered in both high back and mid back heights, Garvey is well suited for executive and management applications. The seat and back are contoured to provide extra comfort as well as lumbar support.
