Simple. Refined. Pure, Natural Beauty.

Ramona, by JSI, is a guest seating collection that calls attention to the beauty of solid wood while inviting comfort to the office environment.

Ramona has a slender yet generous profile. Its unique, deep contour back offers unmatched comfort and relaxation. Four back styles mix refined upholstery and the support of steam bent wood. Tapered legs are angled intently for a wall saver design and create a thin profile, contrasting flawlessly with its more generous seating width.

Ramona guest chairs will be available to order by NeoCon. Come have a seat, this NeoCon in the JSI showroom, space #3-111.
