Simple. Refined. Pure.

Trail, by JSI, is an occasional table collection which offers a retreat from today's busy, digital world. The functional and organic nature combine to create an accent piece that is minimalistic, yet warm. Available in three modern shapes and 4 sizes, Trail allows you to create your own personality. Layer, nest, mix and match the tables to forge your own trail.

Experience Trail's organic, warm minimalism at this NeoCon in space 3-111.
