## Product and Finish Information

### Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Anthology Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Anthology Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

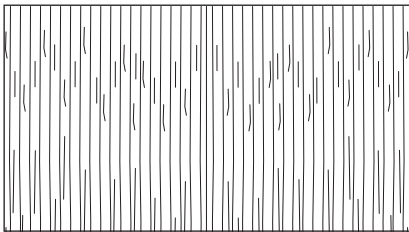

*Book-Matched Example*

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Anthology Veneer is available in flat cut cherry, maple, walnut and black oak veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Anthology Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Anthology Veneer. Use the appropriate pricing column when specifying Double Cut veneer.

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

Safety- Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.  
 Quality- Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.  
 Durability- Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

### Finish Sheen

All veneer finishes are standard in 35-sheen, with the exception of Raven. Raven is only offered in 15-sheen. All other finishes are available in 15-sheen.

### Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first-time matches and must be included with the written request.

There is a one-time charge of **\$400 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Use standard pricing and option pricing for each line item with a special finish, unless additional modifications have been specified. For items available in both Essential and Artisan veneers, apply the Essentials pricing.

## Product and Finish Information

---

### Laminates

Anthology Laminate features TFL (thermally fused laminate) chassis and components.

Edges of the worksurface are impact resistant (PVC) on TFL tops. The laminate is offered in 19 wood grain patterns and 7 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish.

### Credenza Top Surfaces

Tops have a  $\frac{3}{4}$ " top panel thickness and a .5mm edgeband.

### TFL features on Surfaces\*

- fused to the 45 pound density substrate of the top for a durable wear resistance surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

### Credenza Case Construction

Outside panels are  $\frac{3}{4}$ " and joined together with dowels reinforced with screws, and metal fasteners for increased stability. Tops are secured to the chassis with screws through pre-bored stretcher rails and pocket holes.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Unfinished back, includes cutout in back side for wire management pass through.

### Locking

Locks are available per door set for \$51.

When locks are ordered, units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

### PVC Edge Selection

Tier 2 Laminates require the additional specification of a PVC edge band. Choose from one of the following JSI standard options.

ALB	Alabaster	MES	Mesa
BEL	Belair	MIN	Mineral
BLK	Black	MCH	Mocha
BRK	Brickdust	OBK	Outback
BBL	Bridal Blanco	PIL	Pilsner
CSK	Cask	PIN	Pinnacle Walnut
CLY	Clay	SHD	Shadow
DWH	Designer White	SLG	Slate Grey
EGR	Egret	UMB	Umber
FAW	Fawn	VAL	Valley
FLN	Flint	WLH	Walnut Heights
FLO	Florence Walnut	WEA	Weathered Ash
LOF	Loft	ZEN	Zen Grey

# Product and Finish Information

## Veneer

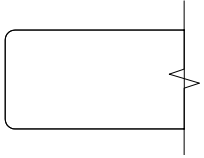

### Table Models

The Anthology suffix V or KV is used to designate veneer material.

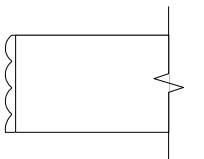

### Veneer Tops

Anthology features 1 3/8" thick veneer table top surfaces in several rim and finish options; see table top specification [ANPG\\_6](#).

## Specification Overview

### TABLE TOPS, BASES, AND POWER COMPONENTS ARE ORDERED SEPARATELY

#### SELECT TOP MATERIAL

Choose between TFL with eased pvc rim, HPL with eased or reverse bevel pvc rim, and Veneer with eased, reeded, transitional, or reverse bevel veneer edge band.

#### SELECT TOP SIZE AND SHAPE

Options include, rectangular, soft rectangular, arc rectangular, boat, arc boat, racetrack, and round. Sizes range from 36" –60" depth and 72" –240" width in 6" increments to accommodate various room sizes.

#### SELECT BASE STYLE AND FINISH

- Bevel, Bridge, and Fluted Cylinder solid wood bases.
- Conical and Racetrack HPL and Veneer bases.
- Outline TFL and Veneer bases.
- Oblique Metal powdercoat bases.
- Frame and Frame BridgeLine metal powdercoat and chrome bases.
- Racetrack and Racetrack BridgeLine HPL and Veneer bases.

**For ease of specification bases are sold in kits aligned to specific top sizes. The base kit is a complete set of bases, mounting brackets, screws, along with stretcher rails and undersurface metal support as required for applicable top sizes.**

#### SELECT THE POWER MODULES

Options for power include:

Electrolite, Ellora, Ellora Double, M2X, Node, Oasis, Vault Z23 Retractable, and Vault BTC Rotating. A broad selection of performance features support small to large power requirements including USB A+C.

Selected models are available with corded plug, hardwire, or one-, two-, three-, and four-unit kits linked together with a single plug. Kits include power units, jumpers, power infeed, and all applicable parts to simplify specification. Kits are specific to table width.

**Anthology tops and bases are designed to be specified together as per the application guidelines listed in the pricing section. They are not to be used with tops and bases from other series.**

## Table Top Specification

### PRODUCT SPECIFICATIONS

Top shapes are available in rectangular, soft rectangular, arc rectangular, boat, arc boat, racetrack, and round. Sizes range from 36" – 60" depth and 72" – 240" width in 6" increments.

### TOPS ARE BALANCED CONSTRUCTION AVAILABLE IN

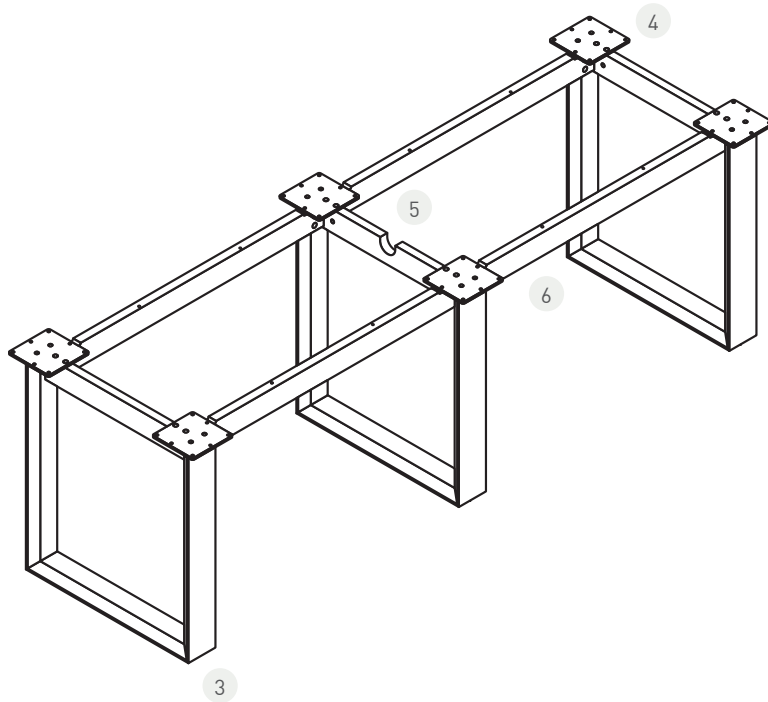

- TFL (thermally fused laminate) 1 1/8" thick particle board core with 3mm PVC Eased (R3) rim.
- HPL (high pressure laminate) 1 3/16" thick particle board core with 3mm PVC Eased (R3) rim.
- HPL (high pressure laminate) 1 3/16" thick MDF core with 1mm PVC Reverse Bevel (K9) rim. Underside of bevel is painted to match PVC rim.
- Veneer 1 3/16" thick particle board core with 3mm veneer edge band in Eased (R3), Reeded (H3), or Transitional (C3) rims.
- Veneer 1 3/16" thick MDF with 1mm edge band Reverse Bevel (K9). Underside of bevel is finished to match surface and edge band.
- Tops are rimmed on all sides.
- TFL and HPL tops are standard with PVC rim to match the top color.
- Veneer tops are standard with edge band stained to match top.
- HPL tops are available with an extended laminate offering (Tier 2) from Formica and Wilsonart. Customer will select the PVC edge color.
- Grain direction for TFL, HPL, and Veneer runs with the width of the top (left to right).
- Great care is taken to align multi-piece laminate woodgrain tops as closely as possible at the seams. However; due to the natural pattern variations and manufacturing tolerances, a perfect grain match cannot be guaranteed.
- See pricing pages for top sections by model.
  - 72" – 96" widths – one piece top
  - 102" – 120" widths – one- and two-piece tops
  - 126" – 192" – two-piece tops
  - 198 – 240" – 3 equal piece tops
- Multiple piece tops ship with joint connectors and biscuits to align and draw table sections together at the seams. Hardware to attach tops to bases, ship with the base or base kits.

## Base Specification

### BEVEL BASE KIT

Available in maple, oak, and walnut solid wood. Wood species aligns with respective finish.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 36"-60" depth and 72"-240" width.
3. Base depths are 18", 24", and 30". Individual base dimensions are 4" wide x 1 3/8" thick.
4. Metal mounting plates, with hardwood end and center rails.
5. Center bases have a 2" diameter cord pass through for routing cords base to base under the table top.
6. Veneer side stretcher rails, 3" high x 1 1/8" deep will match base finish.
7. Base includes levelers.
8. Attachment hardware for top ships with base.
9. Order cord management to floor separately.

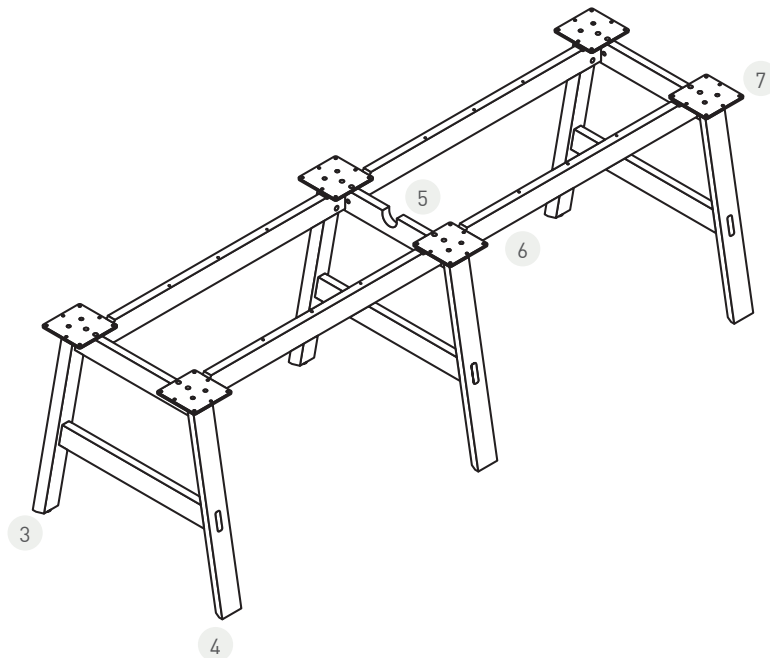

## Base Specification

### BRIDGE BASE KIT

Available in maple, oak, and walnut solid wood. Wood species aligns with respective finish.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 36"-60" depth and 72"-240" width.
3. Base depths are:
  - 24" at bottom, 14 3/8" at top
  - 30" at bottom, 20 3/8" at top
  - 36" at bottom, 26 3/8" at top
4. Individual base dimensions are 3" wide, 3/8" thick. Horizontal rail is 3" high x 1" thick.
5. Center bases have a 2" diameter cord pass through for routing cords base to base under the table top.
6. Veneer side stretcher rails, 3" high x 1 1/8" deep will match base finish.
7. Metal mounting plates, with hardwood end and center rails.
8. Attachment hardware for top ships with base.
9. Base includes levelers.
10. Order cord management to floor separately.

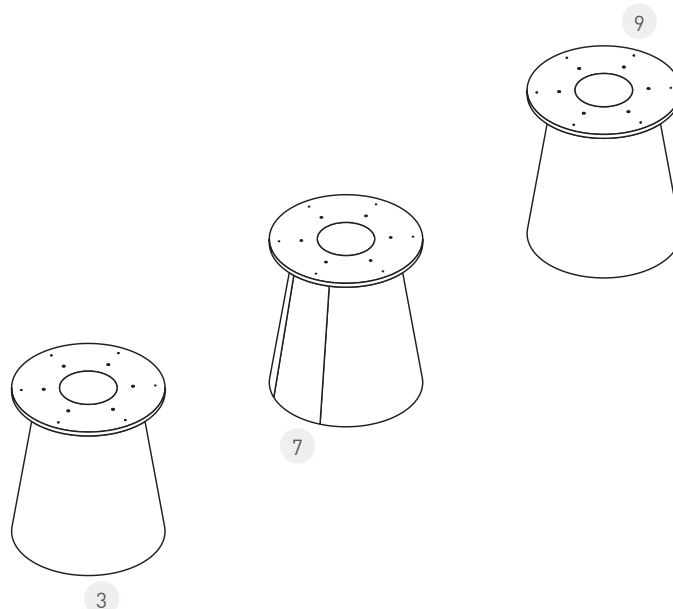

## Base Specification

### CONICAL SINGLE BASE & CONICAL BASE KIT

Available in HPL and Veneer surfaces. Grain runs vertical.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Single bases are for use with round tops from 36" -60". Available with or without access for cable management.
3. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 42"-60" depth and 102" -240" width. Base kits come standard with a combination of access and non access doors. Access base can be in any base location to accommodate floor power.
  - 2 base kits include 1 access and 1 non access base
  - 3 base kits include 1 access and 2 non access bases
  - 4 base kits include 2 access and 2 non access bases
4. All 20" diameter bases are 20" at bottom and taper to 12" at top. Cable management opening is 6" at top and 9" at bottom.
5. All 24" diameter bases are 24" at bottom and taper to 16" at top. Cable management opening is 9" at the top and bottom.
6. All models have a cord pass through at upper side of base for routing cords base to base under the table top. Opening is 1 5/8" wide x 2 1/4" high (not visible on line art below.)
7. Quick release removable access panel.
8. The counterweight will be included and will ship with the following bases:
  - Single base for 36" -60" round tops.
  - Base kits for 42" -48" depth and 102" -240" width tops.
9. Black particle board mounting pad with a attachment hardware for top ships with base.
10. Base includes levelers.
11. Selected models ship with metal support that runs with width of base where required.

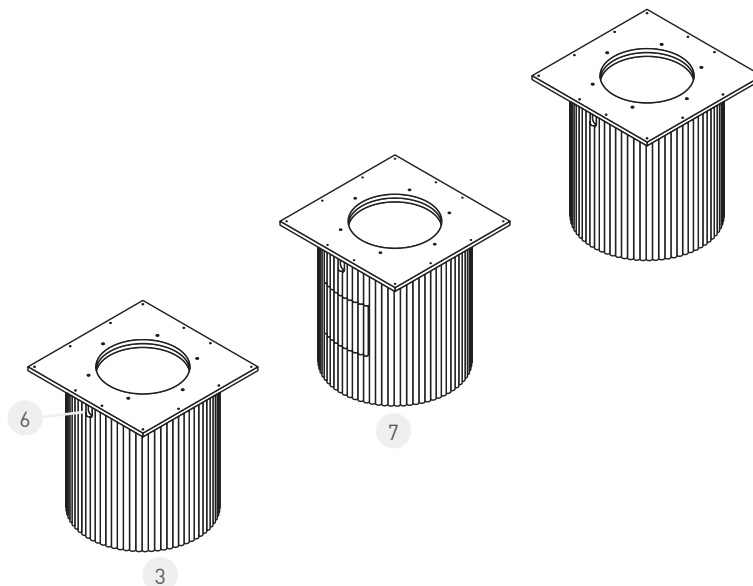

## Base Specification

### FLUTED CYLINDER SINGLE BASE & FLUTED CYLINDER BASE KIT

Available in maple, oak, and walnut fluted solid wood. Wood species will align to respective finish. Grain runs vertical.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Single bases are for use with round tops from 36" -60". Available with or without access for cable management.
3. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 42"-60" depth and 102" -240" width. Base kits come standard with a combination of access and non access doors. Access base can be in any base location to accommodate floor power.
  - 2 base kits include 1 access and 1 non access base
  - 3 base kits include 1 access and 2 non access bases
  - 4 base kits include 2 access and 2 non access bases
4. All 18 model bases are 19 1/8" diameter with fluted profile. Cable management opening is 11 1/2" diameter at top 7" diameter at bottom.
5. All 24 model bases are 24 5/8" diameter with fluted profile. Cable management opening is 15" diameter at the top and 9" diameter at bottom.
6. All models have a cord pass through at upper side of base for routing cords base to base under the table top. Opening is 1 5/8" wide x 2 1/4" height.
7. Access base has a 10" x 10" square hinged door.
8. The counterweight will be included and will ship with the following bases:
  - Single base for 36" -60" round tops.
  - Base kits for 42" -48" depth and 102" -240" width tops.
9. Black particle board mounting pad with a attachment hardware for top ships with base.
10. Base includes levelers.
11. Selected models ship with metal support that runs with width of base where required.

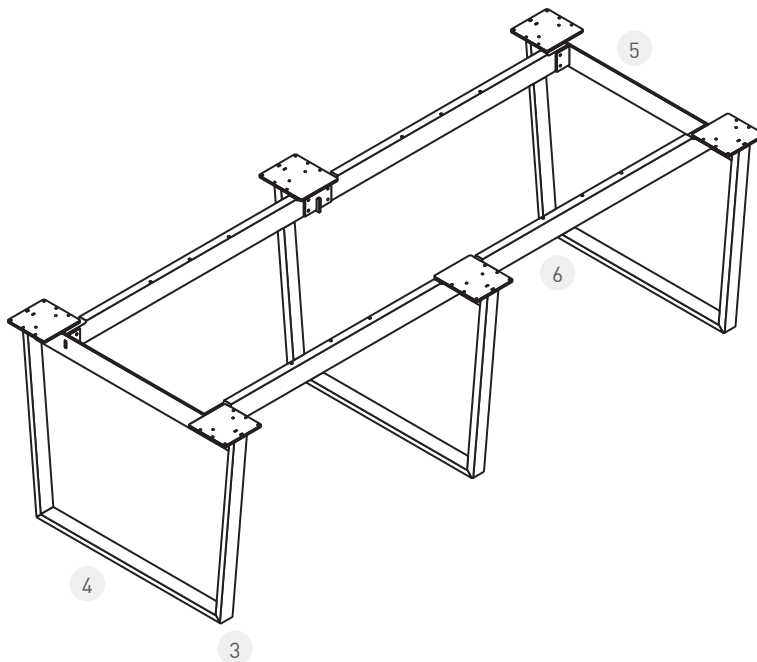

## Base Specification

### FRAME BASE KIT

Available in metal powdercoat paint and chrome finishes.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 36"-60" depth and 72"-240" width.
3. The bottom and sides of each base are 14 gauge, 2" x 1" rectangle tube.
4. Bases are tapered in design.
  - 18" depth bottom, tapers to 22 7/8" at top.
  - 24" depth bottom, tapers to 28 7/8" at top.
  - 30" depth bottom, tapers to 34 7/8" at top.
5. Metal mounting plates, and end rails are painted to match base.
6. Side stretcher rails, 3" high x 1 1/8" deep Black TFL.
7. Base includes levelers.
8. Attachment hardware for top ships with base.
9. Magnetic Metal Wire Manager sold separately.

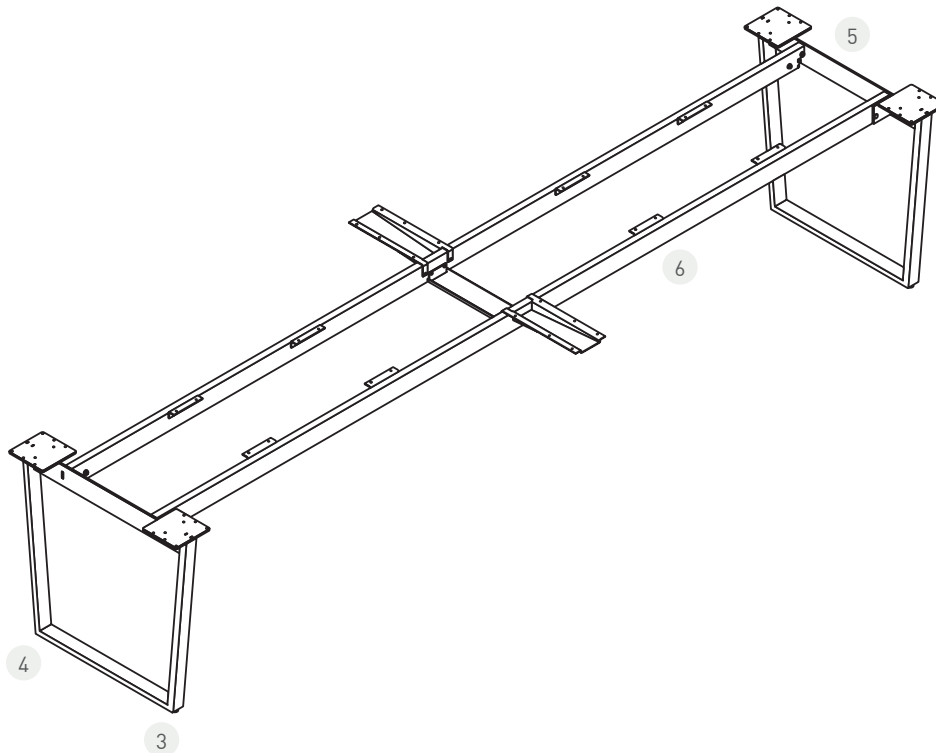

## Base Specification

### FRAME BRIDGELINE BASE KIT

Available in metal powdercoat paint and chrome finishes.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-base configurations. Supports top sizes 48", 54", 60" depth and 120" -192" width.
3. Bottom and sides of each base are 14 gauge, 2" x 1" rectangle tube.
4. Bases are tapered in design.
  - 24" depth bottom, tapers to 28 7/8" at top.
  - 30" depth bottom, tapers to 34 7/8" at top.
5. Metal mounting plates and center support structure are black. End rails are painted to match the base.
6. Two metal side beams are black 14-gauge tube, 3" high x 1" in.
7. Base includes levelers.
8. Attachment hardware for top ships with base.
9. Magnetic metal wire manager sold separately.

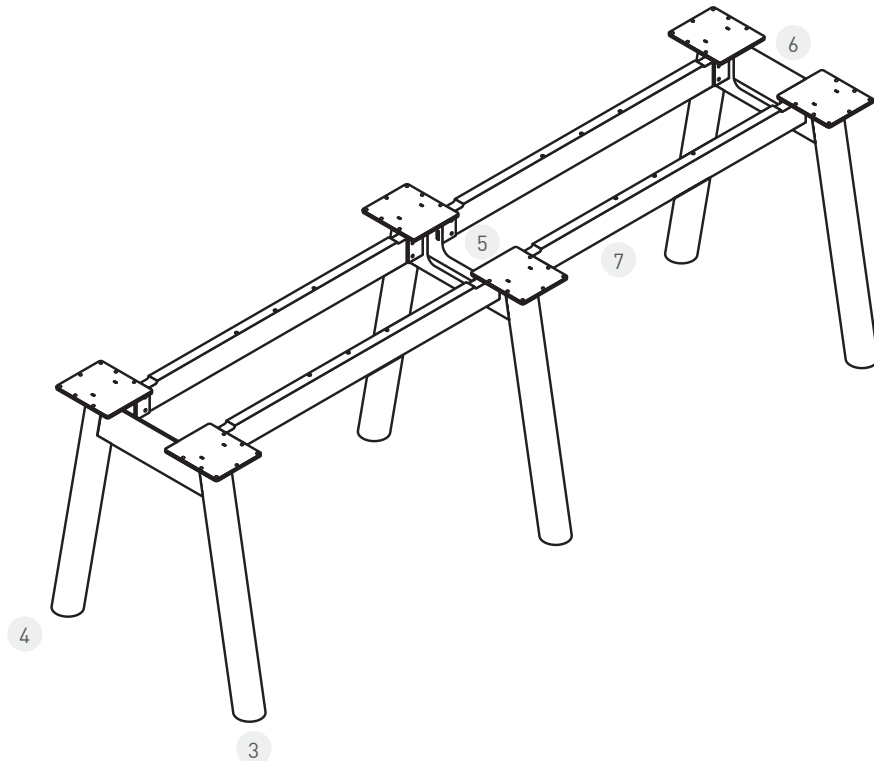

## Base Specification

### OBLIQUE BASE KIT

Available in metal standard and additional powdercoat finishes.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 36"-60" depth and 72"-240" width.
3. Legs are 14 gauge, 3" round tube.
4. Base depths are:
  - 24" models are 27" at bottom, 17 3/8" at top.
  - 30" models are 33" at bottom, 23 3/8" at top.
  - 36" models are 39" at bottom, 29 3/8" at top.
5. Center bases allow cord pass through for routing cords base to base under the table top.
6. Metal mounting plates, and end rails are painted to match the base.
7. Side stretcher rails, 3" high x 1 1/8" deep Black TFL.
8. Base includes levelers.
9. Attachment hardware for top ships with base

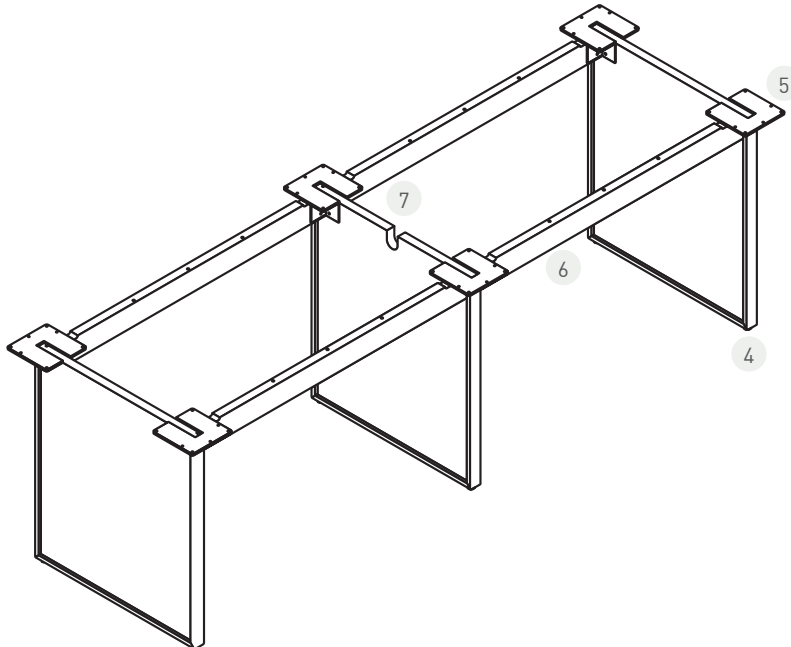

## Base Specification

### OUTLINE BASE KIT

Available in TFL and Veneer surfaces with powdercoat or chrome metal accent trim. Grain runs vertical.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 36"-60" depth and 72"-240" width.
3. Individual base depths are 18", 24", and 30". Base width is 1 1/2".
4. Base design features a 1 1/8" thick panel with a 3/4" x 1 1/2", 14-gauge metal accent trim at sides and bottom.
5. Metal mounting plates.
6. Side stretcher rails, 3" high x 1 1/8" deep and match base finish.
7. Center bases have a 1 5/8" wide x 2" high cord pass through for routing cords base to base under the table top.
8. Base includes levelers.
9. Attachment hardware for top ships with base
10. Order cord management to floor separately.

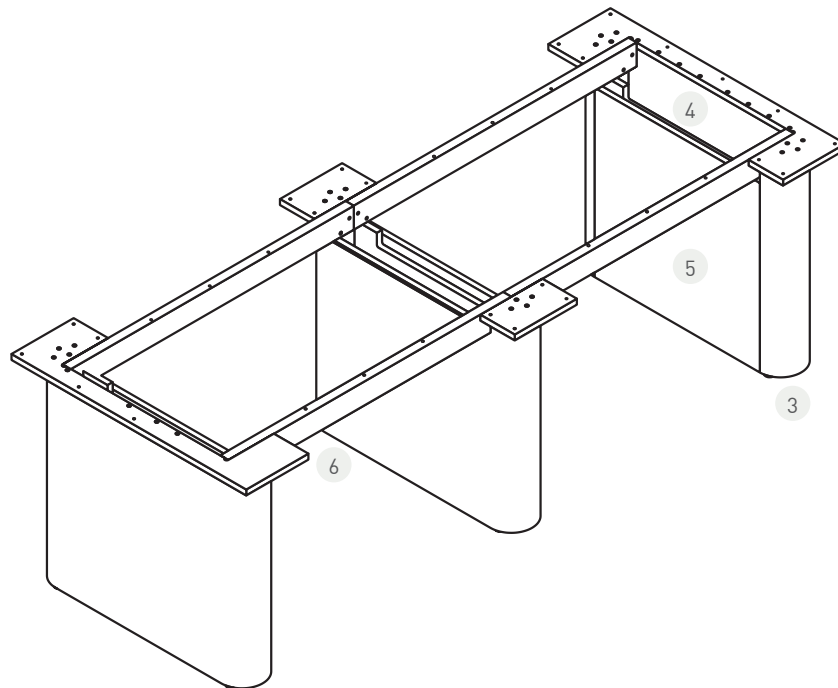

## Base Specification

### RACETRACK BASE KIT

Available in HPL and Veneer surfaces. Grain runs vertical.

1. Base is 27 7/8" high, 29" with 1 1/8" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 36"-60" depth and 72"-240" width.
3. Individual base depths are 18", 24", and 30". Base width is 6".
4. Interior clearances for cable management are as follows:
  - Top opening is 3 3/8" wide, bottom opening is 2 1/2" wide.
  - Top and bottom depth opening is:
    - 9 1/2" for 18" base
    - 15 1/2" for 24" base
    - 21 1/2" for 30" base
5. All bases in the kit feature a removable access panel on inside of each base. The center base can have removable access positioned in either direction.
6. Side stretcher rails, 3" high x 1 1/8" deep and match base finish.
7. Attachment hardware for top ships with base
8. Base includes levelers.

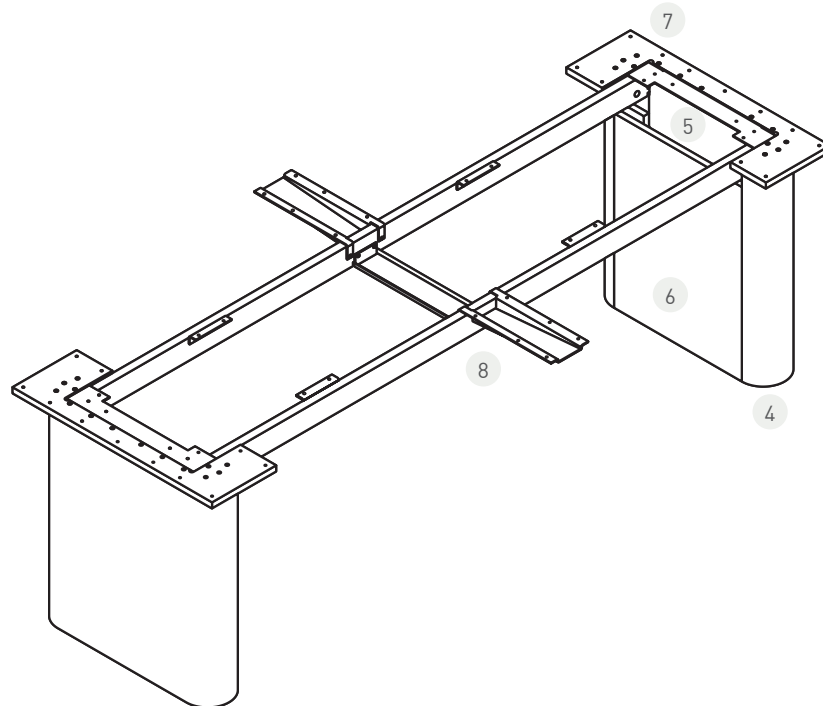

## Base Specification

### RACETRACK BRIDGELINE BASE KIT

Available in HPL and Veneer surfaces. Grain runs vertical.

1. BridgeLine Base Kits feature a patent-pending 2 base support structure.
2. Base is 27 7/8" high, 29" with 1 1/8" top.
3. Base kits are specific to top depth and width, and come in 2-base configurations. Supports top sizes 48", 54", 60" depth and 120" –192" width.
4. Individual base depths are 24" and 30". Base width is 6".
5. Interior clearances for cable management are as follows:
  - Top opening is 3 3/8" wide, bottom opening is 2 1/2" wide.
  - Top and bottom depth opening is:
    - 15 1/2" for 24" base
    - 21 1/2" for 30" base
6. Each base in the kit features a removable access door on inside of the base.
7. Mounting pads: metal center support structure and rails are black.
8. Two metal side beams are black 14-gauge tube, 3" high x 1".
9. Base includes levelers.
10. Attachment hardware for top ships with base.

## Seating Capacity

### RECOMMENDED SEATING CAPACITY

Applies to rectangular, soft rectangular, arc rectangular, boat, arc boat, racetrack, and round.

Top Width	Depth

## Table Top Power Overview

Anthology Power Modules offer a broad selection of performance features to support small to large power requirements including USB A+C. Models are available as single specified units. Selected models are available as modular component system kits with a single plug.

Power modules can be integrated into table tops to provide convenient electrical access for devices. There are two main ways to connect them to the building's power:

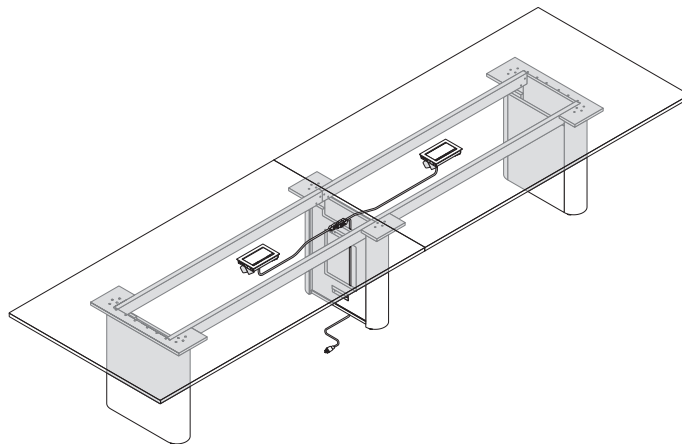

### **DIRECT PLUG-IN:**

The power module can be connected directly to a floor monument. There must be one power outlet per single corded unit. Dual corded modules require two outlets per unit. This method requires several floor outlets to power multiple units.

### **SINGLE PLUG-IN MODULAR COMPONENT SYSTEM:**

Several power modules are linked with a single-circuit power system. Multiple power unit kits are linked together and connect to a floor monument with a single connection. Linking systems reduces the need for multiple floor outlets and simplify installation.

# Power Types & Top Cutout Locations

PRE-DETERMINED CUTOUT LOCATIONS ARE AVAILABLE BASED ON TOP SIZE AND BASE STYLE. REFERENCE PAGES 27 -39 FOR CUTOUT LOCATION BY TOP SIZE AND BASE STYLE.

## POWER TYPES

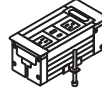

Cutout CA Node

Cutout CB Electrolite

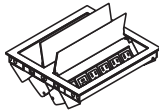

Cutout CD Ellora

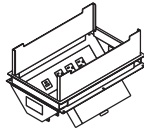

Cutout CE Vault Retractable Z23

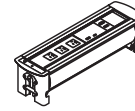

Cutout CF M2X

Cutout CG Ellora Double

Cutout CH Oasis Two Sided

Cutout CJ Vault BTC Rotating

## Wire Management Accessories

Anthology features several bases which offer integrated wire management through the base.

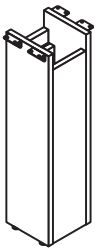

Conical, Fluted, and Racetrack bases provide a pass-through for cords to the floor. All feature access to the interior of the base by a removeable panel or hinged door. Racetrack shown below.

The Frame base is available with a magnetic wire manager that is sold separately.

For bases without integrated wire management a Wire Management Chase is available in TFL (65T7228WCV) or Veneer (65T7228FWM) finishes that can be specified between bases to conceal cords to the floor.

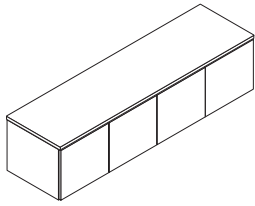

A Flexible Wire Manager (9P26FWM) is available to support cords between bases and attaches to underside of top.

Additional cord manager accessories from other series can also be utilized such as Flexible Floor Manager GP250VWM.

## Power and Cutout Information

### Power Types

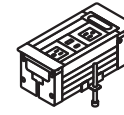

Cutout CA Node

Cutout CB Electrolite

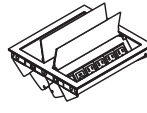

Cutout CD Ellora

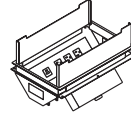

Cutout CE Vault Retractable

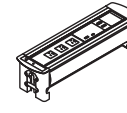

Cutout CF M2X Two Sided

Cutout CG Ellora Double

Cutout CH Oasis Two Sided

Cutout CJ Vault BTC Rotating

Anthology Power Modules offer a broad selection of performance features to support small to large power requirements including USB A+C. Models are available as single specified units, with selected models available in kits linked together with a single plug. Price list pages \_\_\_ - \_\_\_ for power unit specifications.

Pre-determined cutout locations are available based on top size and base style.

Cutouts are \$33 per cutout.

Two cutouts	\$66
Three cutouts	\$99
Four cutouts	\$132

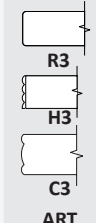

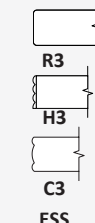

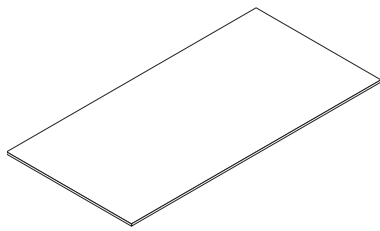

To order: specify code associated with power module and location.

CD2M = Ellora- 2 cutouts- Mid Location

Planning location codes [ANPG\\_21](#).

## Data Adapter Applications

12 Pack Data Adapter Kit ships with Power Units: Node, Ellora, Ellora Double and M2X with open ports.

Black plastic adapter trims are marked on the back surface with letter designators that indicate the data jack manufacturer, series and style. Manufactures websites are listed below for quick reference to verify data jack series and style.
