## Flux Open Plan General Options

### Laminate Products

Flux Open Plan Laminate features TFL (thermally fused laminate) chassis and components. Main worksurfaces\* are available in a HPL (high pressure laminate).

Eased edges of the worksurface are impact resistant (PVC) on HPL tops. The laminate is offered in wood grain patterns and solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Flux Laminate products are indoor-air certified by GreenGuard.

### Laminate Worksurface Construction

Worksurfaces have a 3-ply balanced construction. Tops are 1 3/16" thick with coordinating PVC edges. Primary worksurfaces feature 3mm PVC edges on the approach and user sides. Main worksurfaces are offered in HPL. Bridge, return, and primary height credenza worksurfaces are profiled with a 3mm PVC edge on the user side only. Remaining edges are banded with 1mm PVC which creates a seamless appearance when units are mated end-to-end or back-to-back.

### HPL Features on Main Worksurfaces\*

- fusion of multiple layers create a higher impact resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

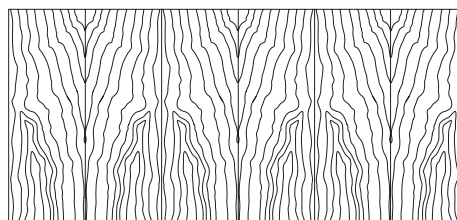

### Case Construction

Panels for chassis consist of a 3/4" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestal and cabinets are constructed with dowels reinforced with screw and interior plates for increased stability. Leveling glides are set into metal housing corner plate to allow for maximum leveling.

\*Main Worksurfaces include tops on desks, primary height credenzas, returns, bridges and transaction tops. Refer to pricing pages to confirm availability.

### Veneer Products

Exterior wood surfaces are made from the finest selected veneers to achieve clarity and consistency in the Flux Open Plan Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, and walnut veneers in Flux Open Plan Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

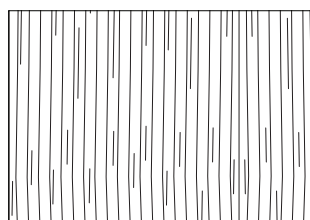

Veneer Book-Matched Example

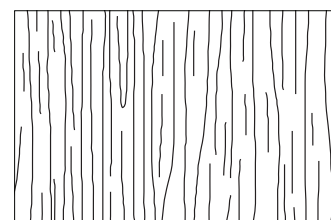

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Flux Open Plan Veneer is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Flux Open Plan Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create a wide variety of patterns, from a very tight grain pattern to an exotic figure grain pattern. Double Cut veneer can be run vertical or horizontal. Please specify the grain direction.

Double Cut Veneer - Tight Grain Pattern

Double Cut Veneer - Natural Grain Example

### Veneer Worksurface Construction

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

### Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance. It has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

### DuraTex™ Features

- Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe.
- Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
- Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

### Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 5. There is a one-time charge of \$299 list per order.

## Flux Open Plan General Options

### Drawer Information

Flux Open Plan is standard with a unidirectional V-fold drawer box interior. The box is a durable, miter-fold drawer structure which is glued and doweled. The  $\frac{1}{2}$ "-thick drawer sides are wrapped in a high-grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

### Wood Drawer Boxes

Optional four corner dovetailed wood drawers are available. Specify and add 10% per unit.

### Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

### Filing Hardware

All file drawers are constructed with a custom design for hanging folders. See filing diagram on page 37.

### Locking

All desks, credenzas, returns and mobile pedestals feature pedestal front locking to provide maximum security and flexibility in configuration. Units are shipped randomly keyed as standard. Key-alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Lock face color is controlled by the metal color of the unit.

Pewter and Matte Black = Black Lock Face

Soft Nickel and Arctic Silver = Silver Lock Face

### Interior compartment

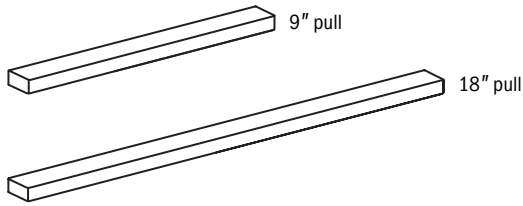

Interior compartment sizes and specification matrix on pages 54, 55 and 65.

### Special Construction

Flux Open Plan has an extensive product offering to create many types of configurations. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests for special construction need to be approved by JSI engineering.
