# FLEXIBLE. MODERN. FOCUSED.

As offices change to serve more than one purpose, Flux sets the stage for both individual, focused work and casual teamwork with flexible open plan benching and storage.

---

*meet Flux.*

versatile at every LEVEL.

Above- and below-surface storage. Adjustable height benching that meets different work styles. Lockers that join with worksurfaces for impromptu collaboration. Flux is flexible, thoughtful office design from every angle, top-to-bottom.

## NEW ANGLE ON TEAMWORK.

Take a different approach to collaboration with 120-degree teaming stations, or choose modernized straight benching. Low privacy screens invite more conversation, while movable privacy hoods cue more focused work.

Tables adjust to various heights, privacy screens double as tackboards, and movable slat walls make a tidy place for accessories. Lockers with mail slots provide personal storage that blends in perfectly. And across the board, power is integrated and out of sight.

## MINIMAL DISTRACTIONS.

End panels provide full-depth privacy on the sides, acrylic screens block distraction across the table, and movable dividers sit between stations. Credenzas provide storage and seating.

## BUILT RIGHT IN.

Storage is far from an afterthought. Flux lockers and cubbies are built right into common workspace tables, individual stations, and standalone pieces.

**DOUBLE DUTY.**

Secure lockers, open shelves and pantry units provide clean storage while also serving as space dividers. Work or collaborate comfortably on either side.

*working on a* CURVE.

120-degree curves bring flow to a space in adjustable height H-frame configurations, complete with privacy screens. Customizable slat walls add order with useful spots to file papers, charge phones or hold writing tools.

RAISING  
STANDARDS.

Cases provide a sturdy base and conceal the hardware of adjustable height benching. Each privacy screen travels with its worksurface. Mobile pedestals provide extra storage and fit perfectly.

**SEAMLESS  
TRANSITIONS.**

Lightweight H-frame adjustable height benching with integrated wire management and monitor arms make transitions seamless.
