

# indie

residential, freestanding lounge

designed by Justin Champaign - Most Modest

# indie

phase one – embrace the trend.  
A contemporary, freestanding lounge collection that embraces the current trend of a relaxed sit with styling towards residential aesthetics. Tailored to users needs as they shift throughout the day – providing comfort and flexibility with no ground rules.

# indie

## work + home

bringing the feeling of home into the workspace, Indie yields an inviting sit while withstanding public space usage and maintaining JSI's current warranty timeframe of 15 years.

indie

not your traditional workspace

# indie

## organic aesthetics

- casual, relaxed sit
- organic aesthetics
- false welt
- legs sit proud of table top
- built in comfort wrinkles
- honestly crafted

indie

functional aesthetics

# indie

## lounge accessories

adaptable lounge accessories provide additional convenience and storage for open, collaborative environments.

# indie

## lounge accessories

- knob
- hanging power
- magazine pouch
- free placement power

# indie

## materials

use fabrics that lend themselves to this type of upholstery and avoid those that don't such as:

- thin fabrics
- very stretchy fabrics
- fabrics with thick backers
- large print patterns

# indie

## wrinkles

wrinkles will vary based on fabric selection. Heavy backed fabrics will have deeper, more apparent wrinkles in comparison to lighter weight upholstery. Lighter weight fabrics will also have a false welt with less structure and volume in comparison to heavier fabrics.

Heavy backed fabrics

Lighter weight fabrics

# indie

## patterns/stripes

we will always try our best with customer fabric selections, but heavy patterns and stripes are not suggested due to Indie's organic aesthetic and curves and how these patterns and stripes will come together at the seams.

contrasting cords

colored fabric cord designed  
by Most Modest.

# indie

## optional headrests

headrests available on leg lounge for added comfort and style.

# indie

## flexible functionality

from the traditional workspace to a more open collaborative environment, Indie's simple form and easy mobility is perfect for casual meetings or more focused, individual work.

phase two – create your space.  
Freestanding screens and wall tiles create  
privacy and acoustical barriers for high  
traffic areas.

# indie

public or private – you decide

create private alcoves or small collaborative spaces with Indie's freestanding panels or decorate your space with dual functionality wall tiles.

# indie

## phase two

- wall tiles
- freestanding screens
- accessories

# indie

visual aesthetic + functionality

# indie

## conversation cubbie

- single
- double
- triple

# indie

## designed division

create private alcoves within a public space with Indie freestanding screens. Achieve seated privacy without interrupting views with 48" high, or, for added privacy and sounds separation, 60" screens are also available.
