Standard PVC Edge Colors

JSI supports 26 standard PVC edge colors listed below. These coordinate with our Standard (Tier1) Laminates.

When selecting a Standard (Tier 1) Laminate, the coordinating PVC edge color is automatically applied. When selecting a Graded-In Laminate (Tier 2), you will be prompted to choose one these 26 PVC edge colors to be applied to the edge.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Finish Sheen

All veneer finishes are standard in 35-sheen, with the exception of Raven. Raven is only offered in 15-sheen. All other finishes can have their sheen modified with a 15% upcharge added to the list price of each item.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first-time matches and must be included with the written request.

There is a one-time charge of **\$400 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Use standard pricing and option pricing for each line item with a special finish, unless additional modifications have been specified. For items available in both Essential and Artisan veneers, apply the Essentials pricing.

Teamwork - Base Styles

Lok provides a choice selection of bases in both function and aesthetics to serve a variety of needs. The teamwork offering includes: T-base and X-base

Power/Charging Options

Lok offers the ability to place power and charging options in the center of select tables. Select your choice of EC23 or EC24, available in black and white.

Moire - EC23

- Three 110 outlets
- Dual USB port with 72" power cord
- Black (B) or White (W)

select CTEC23 for cutout in worksurfaces

Node - EC24

- One 110 outlet
- Dual USB port with 72" power cord
- Black (B) or White (W)

select CTEC24 for cutout in worksurfaces

Cut outs are located in the center of each table. See below for representation or location.

Teamwork - Electrical

Electrical Overview

Lok provides several packages to choose from for your electrical needs. Choose solutions for top surface power, underneath outlets, wireless charging, or a combination.

Specifying an electrical package eliminates your need to calculate additional components, as all units and necessary jumpers will ship with your table. You will only need to determine which power in-feed best suits your needs and order separately.

Electrical

Power and Charging Packages are measured and located out from the center of the table. Shown on rectangular tops, these dimensions are the same from center regardless of table shape (ie huddle, boomerang, etc.). Power in-feed is specified separately to support building electrical connection.
