Strata Product Information

Strata Veneer

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Strata Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut and black oak veneers are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

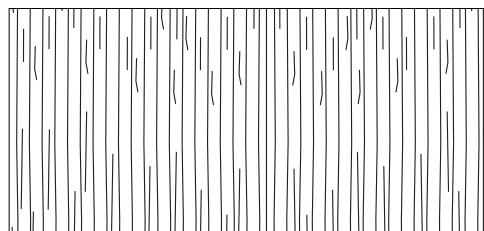

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Strata Veneer is available in flat cut cherry, maple, walnut and black oak veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Strata Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below shows the tight pattern used on Strata Veneer.

Solid painted finishes on MDF are also offered to provide an accent to the Strata product.

Worksurface Construction

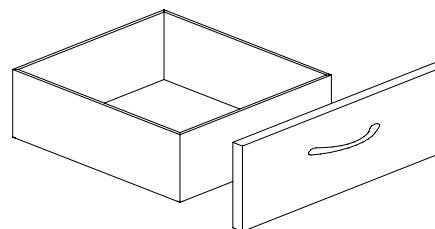

Tops are 5-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

Case Construction

Outside panels are 3/4" and joined together with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Drawers

The unidirectional V-Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The 1/2" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Locking

Desk and return pedestals feature pedestal front locking to provide maximum security and flexibility in configuration.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **\$372 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Strata Product Information

Strata Laminate

Strata Laminate features HPL (high pressure laminate) worksurfaces and TFL (thermally fused laminate) chassis.

Edges of the worksurface are banded with impact resistant (PVC). The laminate is offered in 19 wood grain patterns and 7 solid colors. Wood grain laminates feature an embossed grain that adds texture and helps to hide finger prints and light scratches. The solid color laminates are smooth to the touch with a semi-matte finish. All Strata Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Strata product.
